BIO

From a very young age, I was interested in history. After graduating from high school, I attended the University of Washington where I earned a Bachelors of Arts degree in History. Following the completion of my degree, I taught as a high school history teacher in the Seattle Public Schools System for over 30 years.

In my retirement I over to volunteer at the local community center, helping many of the kids with their schoolwork. I am happily married to my wife, Susan, for 50 years. We have two children that have gifted us with three wonderful grandchildren.

Motivations

IMPACT

TEAMWORK

PROMOTION

USER NEEDS

Goals

- Help the younger generation learn and explore new topics
- Make a positive impact on the community in any shape or form
- Live a long and healthy life with those that are around me

Frustrations

- Feeling lonely and isolated
- Poor health
- Concerns about the state of the world that we are leaving for future generations.

“

“I want to help my team deliver great user experiences”
